OVER THE YEARS

Commentaries based on cataloging over 300 sales and 51 years collecting - since 1928
(including THE LARGEST A.N.A. SALE EVER HELD-1977)

The last sale (April 27-28) C.S.N.S. at Dearborn, Michigan presented a challenge as well as a test of the depth of the present market "boom". How do we catalog over a thousand Morgan dollars without making them appear "common"? A quick review of that catalog will reveal how this situation was handled. The messages we are receiving from the pleased consignors is sufficient approbation for the effort expended. We know that many buyers (both collectors and dealers) were pleased at the number of opportunities they had to acquire many elusive dates. VAM number dollar collectors seem to be increasing, therefore we made a special effort to obtain a consignment of desirable Morgan dollars attributed by VAM numbers. "Good hunting"!

The "test" consisted in offering so many Morgan dollars in one sale. How would the market react? Evidently the market is even stronger than we could possibly anticipate. Over 90% of the Morgan dollars were "knocked down" to floor bidders, most after spirited and strongly competitive bidding - some by eight to ten bidders on the same lot. Luckily we had the assistance of several "spotters" to keep track of the floor bidders. A number realized double to triple our estimated prices. As this is being composed (early May), the market continues its phenomenal strength with new higher prices appearing nearly every week.

Gold coins, particularly those in the higher grades, continue their rapid advance in values. Large Size Currency in top condition continued setting new record prices, many exceeding our estimated value by 50% or more. On the other hand, some of the mail bidders (as well as those who had the patience to "sit through the sale") were rewarded by an occasional bargain. In fact, in checking the bourse room on Sunday, we noted some of the coins from our auction being offered for sale in dealers' cases.

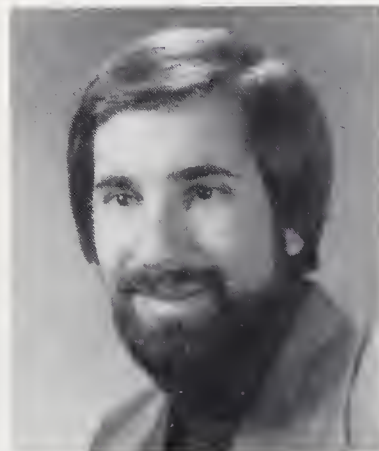

Every dealer we talked to at the C.S.N.S. convention seem pleased with the business they were doing at the convention. Many were more concerned with replacing their stock in this rapidly rising market.

The move to new and much larger quarters is being reflected in more efficient service to our many friends. We still have problems with some receiving their catalogs late, and have taken the matter up with the post office.

HOW TO BID

What to Bid On:

As you read through the catalog for the first time, record the numbers of all the lots you are interested in on a worksheet. If you are interested in specific types of coins, be sure to check the catalog index.

How Much to Bid:

The price you bid is determined by you. You must remember the value that you place on the coins. Check the values listed in the catalog and decide what you are willing to pay. You should bid generously on the lots you strongly wish to obtain. If there are some lots you would like to have 'if the price is right', then you may want to place nominal bids on those lots. Because a number of collectors choose to bid on many lots, the number of successful bids will be relatively small. This is controlled by a very active market. **You can safely extend your bidding** (and take advantage of a 'bargain') by placing a dollar total limit on your bids. Should your total be reached before all your bids are executed, we will then terminate your bidding.

Remember that your bids are limits. It is possible, and quite often does occur, that you will succeed in purchasing a lot for less than your bid since we start the floor bidding at about 5-10% above the second highest mail bid. Example: You bid \$500.00 on the lot and the next highest mail bid is \$400.00, we start the lot bid at \$425.00. If there are no bids from the floor, you will then be awarded the lot at \$425.00 - or if the floor bidding stops at perhaps \$450.00 or \$475.00 then you will receive the lot at a small advance above the top floor bid. If bidding continues above the \$500.00, then that floor bidder will be awarded the lot.

How to Fill Out the Bid Sheet:

On the Bid Sheet you will observe that there are two different column headings. Lots and Bids. When you decide on the lots you want to bid on, enter the lot numbers under the proper column and the maximum amounts you are willing to pay for those lots in the proper column.

LOT	BID	LOT	BID
482	550.00		
517	900.00		
614	130.00		

If you have checked one of the increase boxes, you will be allowing us to increase your maximum bid in order to obtain the lot which is going for more than you had anticipated. We will buy the lots for you as low as possible as outlined in the TERMS OF THE SALE.

GRADING STANDARDS

We use Dr. Sheldon's numerical grading system for the grading of U.S. Coins. This is the system that has been used with great success by sophisticated numismatists for many years and now adopted by the A.N.A. We use the following abbreviations and descriptions:

POOR-1	Barely recognizable as to type.
FAIR-2	Showing minor detail.
ABOUT GOOD-3 (AG-3)	Rims worn down into lettering but interior detail will be visible.
GOOD-4,6	All interior outlines visible.
VERY GOOD-8,10 (VG-8,10)	About 25 percent of the interior detail will be visible, date barely readable.
FINE-12,15	30 percent to 50 percent of the interior detail will show.
VERY FINE-20 through 35 (VF-20,25,30,35)	60 percent to 85 percent of the interior detail will show. 35 (Borderline EF).
EXTREMELY FINE-40,45 (EF-40,45)	90 percent of all interior details will show.
ALMOST UNCIRCULATED 50,55 (AU-50,55)	Bare traces of friction at the highest points. 55+(Borderline Unc).
UNC-60	
MINT STATE-60 (MS-60)	Strictly Uncirculated with no rub or friction, i.e. NO WEAR.
CHOICE BU-60 + MINT STATE-60 + (MS-60 +)	A Choice Uncirculated specimen nicely struck and with nice luster.
GEM BU-65	
MINT STATE-65 (MS-65)	A Gem coin in all respects. Fully struck. Only a bare minimum of minor abrasions.
SUPERB GEM BU-65 + MINT STATE-65 + (MS-65 +)	If you 'look real hard with strong magnification you might find a flaw.
PERFECT GEM-70	
MINT STATE-70 (MS-70)	Once in a great while a perfect coin is sold.
PROOFS & SPECIMENS	Proof and Specimen are methods of manufacture, not grades. All of our Proofs, Specimens, and Proof-Likes are graded in the same manner as our business strikes (examples: Proof-55, Proof-60, CHOICE Proof-60+, GEM Proof-65, SUPERB GEM Proof 65+).

REGARDING ANA CERTIFICATION

KAGIN'S ARE PROVIDING COMPLETE AMERICAN NUMISMATIC ASSOCIATION CERTIFICATION OF YOUR RARE AND UNUSUAL COINS. We at Kagin's think that this certification service is essential in assuring the authenticity of the coins you purchase. This certification service guarantees you the genuineness of the material handled in a Kagin's Auction. **FOR ALL OF THE COINS FEATURED WITH PHOTOGRAPHIC REPRODUCTIONS ABOVE THEIR RESPECTIVE LOT DESCRIPTIONS WE WILL FURNISH ON REQUEST AN ANACS CERTIFICATE.** We are pleased to provide this service for our consignors at no extra charge.

The American Numismatic Association Certification Service, ANACS, is a branch of the federally chartered, non-profit, educational American Numismatic Association. The professional staff at ANACS examines and when necessary, will conduct non-destructive tests on numismatic material submitted for certification. The results of these tests are then furnished to the person submitting the item along with a statement of ANACS opinion concerning the authenticity of the coin.

All coins that are determined to be genuine, and the great majority of them are, are then issued a certificate of registration. This certificate records an identifying code number, a statement of authenticity and documented photographs.

Kagin's is the only auction company that offers this ANACS for all the major coins featured in our auctions. This is a valuable benefit that Kagin's is able to offer you. It protects the collector and the consignor. You will be able to take advantage of this essential service when you consign your coins to a Kagin's auction.

1882 ERROR GOLD CERTIFICATES

As a category, these are much rarer than Legals, Silvers, Federals, etc. Very few indeed have been offered compared to the others.

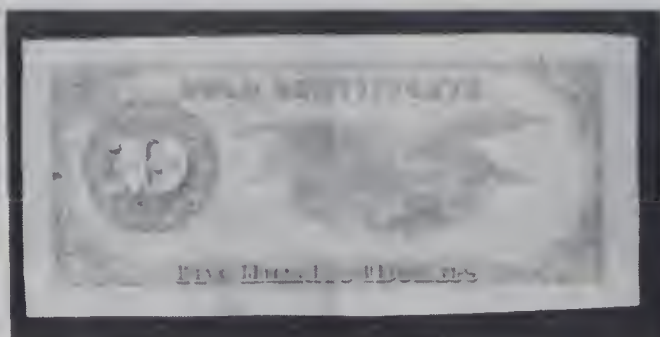

746. **\$20 1882 F1178 GOLD COLOR INTERMITTENTLY ACROSS REVERSE WHITE PORTIONS** (from stacking on wet sheet?), crisp New except for faint center fold. VERY RARE. From a 1966 sale valued \$500, surely now worth well over 1,000.

UNIQUE \$500 "KING OF ERRORS"

747. **\$500 1882 ONLY THE GOLD PORTION OF OBVERSE PRINTED** (regular black obverse design and serial numbers omitted) **NORMAL FULL REVERSE, Very Fine.** Gold portion of obverse consists of "GOLD" in bold large letters top center plus two panels for serial numbers. While we have handled many errors over the years, **THIS IS THE ONLY \$500 GOLD ERROR NOTE WE HAVE ENCOUNTERED IN FIFTY YEARS IN NUMISMATICS!** Valued at \$5,000 in 1965, surely this **UNIQUE "KING OF ERRORS" NOW WORTH OVER \$15,000.** Compared to what lesser rarities and less desirable notes are bringing, we believe this note to be the most undervalued U.S. note! Scarce and moderately rare notes appear often enough that records are established but truly rare notes may not be offered for 10 or 20 years. Thus they tend to be undervalued, until the new record is set -- then it is too late to go back and "raise your bid". We strongly urge serious collectors to carefully ponder the opportunity to acquire this "UNIQUE KING OF ERRORS"!

CHANGEOVER CUT-SHEETS PAIRS LARGE & SMALL NOTES

Very interesting collection, showing the outgoing officer and the incoming officer, followed with the consecutive serial numbers.

PERSONALIZED INVESTMENT SERVICE

Many auction bidders ask us for advice on how to invest in rare coins. Collectors who are building specific collections often ask which dates to buy first, or which condition of coin is best for them to obtain, etc. Other bidders ask us simply for the "best opportunities for investment."

In response to these requests, we have developed the Kagin Numismatic Investment Program — a program which differs from all others.

You receive the personal attention and service of A.M. (Art) and Don Kagin who work with you to develop an individually-designed program that will meet your specific needs.

A.M. Kagin is a professional numismatist who has been active in numismatics for more than 50 years.

Don Kagin is the recipient of the first Ph.D. conferred in numismatics.

We will personally service your account, making suggestions for acquisitions and making sure your collection meets your individual needs.

Kagin's is particularly noted for:

U.S. currency — We edit and publish the **Donlon Catalog of Large Size U.S. Currency 1861 to 1923**. (New 1979 edition just published). Our currency Investment Program includes only **Choice** and **Superb** Notes selected from the **Largest Inventory of U.S. Currency available**.

Pioneer and Territorial Gold — Don Kagin is currently writing the book that will be the new guide for Pioneer and Territorial Gold. When the book is published, rarity ratings will be drastically changed on a number of coins, and there will be fewer "bargains". Avail yourself of this service **NOW** before prices advance further.

Whether you wish to collect specific coins or to make general investments, our Investment Program offers you the following additional services:

- Inclusion in Keogh Retirement Plans and Individual Retirement Accounts.
- Pension Funds.
- Numismatic Tax Counseling.
- Personal Consultations.
- Personalized programs designed to fit your individual needs.

- *When you are sick* — CONSULT A DOCTOR
- *When you have legal problems* — CONSULT A LAWYER
- *When you have Numismatic Investment Concerns* — CALL KAGIN'S
